

YOUR PARTNER IN COMPLETE DRILLING SOLUTIONS

- Committed to safety, professionalism and operational efficiency
- Established operations in emerging markets
- Extensive drilling expertise
- Long term customer relationships
- Substantial investment in employees, equipment and innovative technology.

Capital Drilling is your complete drilling solutions provider, with expertise in; exploration, mine planning and development, blast and production, pit management and grade control services.

Our reputation is built on an unwavering commitment to safety, delivering professional drilling services in even the most challenging environments and achieving operational efficiencies for our clients.

We train our personnel to deliver on all project objectives, including providing quality samples, high core recovery rates and improving productivity.

Capital Drilling has extensive experience in diverse operational environments, including emerging markets within Africa, Asia, Eastern Europe and Latin America.

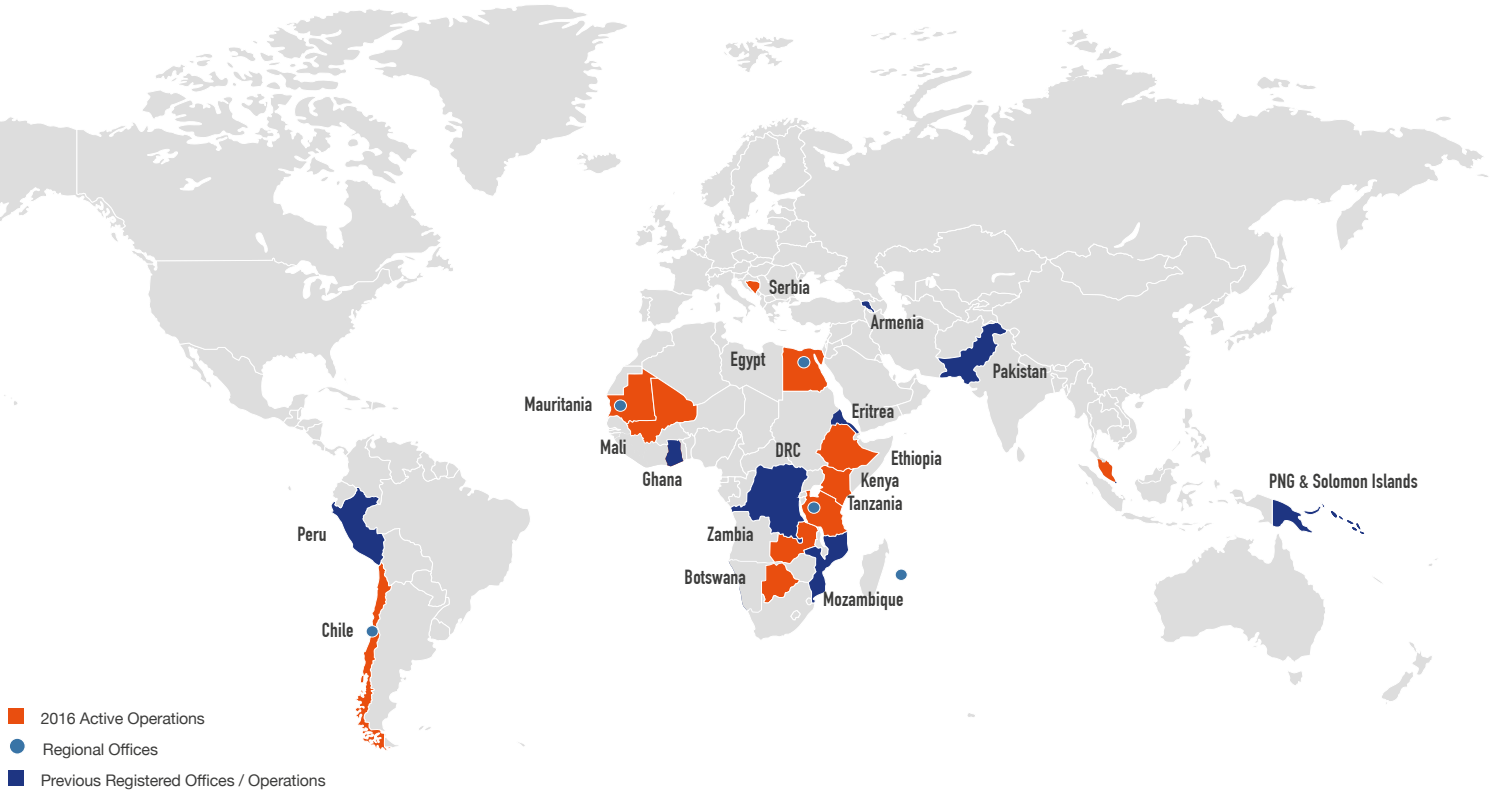

WE ADD VALUE TO YOUR OPERATIONS

Our commitment to operational excellence ensures we deliver substantial benefits to our clients, including:

- Significant reduction in the effective \$ per metre costs at Centamin's Sukari gold mine, Egypt;
- Successful mobilisation of five production rigs in two months for a new contract at Anglo Gold Ashanti's Geita gold mine, Tanzania;
- Outstanding safety records, including awards for eight years Lost Time Injury (LTI) Free at the Geita Gold Mine (April 2015) four years LTI Free at the Kinross Gold Mine in Mauritania(March 2015);
- Rig moves completed in four hours from mast down to mast up, through the introduction of the innovative hook lift system on selected rigs;
- Significantly improved site safety through rig mounted surveillance systems providing remote real time visibility of site activities.

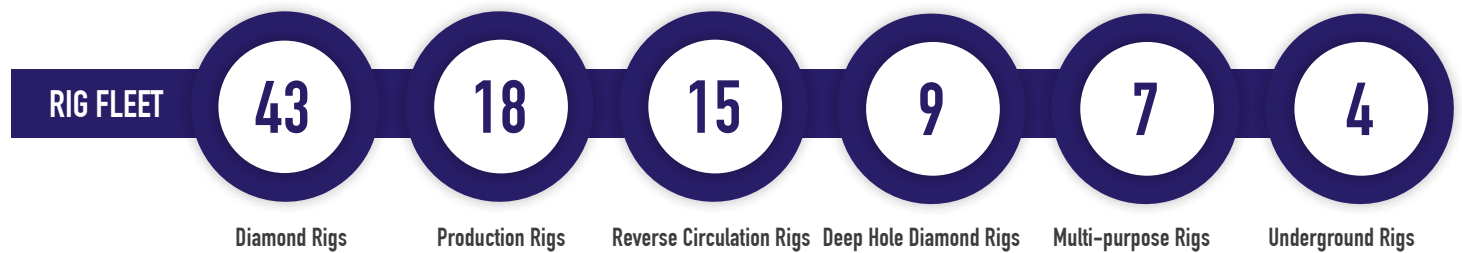

OUR GLOBAL OPERATIONS

Since Capital Drilling commenced operations in 2004, it has grown to become one of the largest drilling companies globally, with operations around the world. At Capital we focus on emerging markets, ensuring professional service delivery with experienced personnel and quality rigs at all our operating locations.

LARGE RIG FLEET

Capital Drilling offers customers a complete drilling solution. It operates an extensive rig fleet, servicing client's drilling operations across the mining cycle from greenfields exploration to mine planning and production.

DRILLING SERVICES

EXPLORATION

- Diamond Core
- Air Core
- Reverse Circulation
- Deep Hole Diamond
- Directional
- Underground Diamond

GRADE CONTROL

- Grade Control

BLAST & PRODUCTION

- Blast hole
- Underground
- Rotary
- Down the Hole (DTH)
- Pre-splits
- Pioneering
- Weep Holes (Horizontal)

MINE PLANNING & DEVELOPMENT

- Resource Definition and Extension
- Paste Holes
- Geotechnical
- Dewatering
- Diamond Core
- Directional
- Reverse Circulation
