

RC DRILLING MANAGER

Capital Drilling is an emerging and developing markets focused drilling services company that provides exploration, development, grade control and blast hole drilling services to mineral exploration and mining companies. Our operations span 3 continents with activities in Africa, Asia and Latin America. The Company currently has a fleet of over 80 drilling rigs and operates one of the youngest fleets in the industry.

Since inception in 2004, the Company has developed an enviable reputation for its ability to deliver safe, professional and reliable drilling services in remote locations and developing market countries. This ability has allowed the Company to attract and retain some of the world's largest mining and exploration companies as major long term clients.

The team at Capital Drilling provides decades of combined experience operating in emerging markets and strives to deliver the highest standards in safety, performance and quality. We pride ourselves on delivering "**developed market standards for emerging market operations**".

Capital Drilling has an immediate requirement for an experienced, motivated and professional RC Drilling Manager.

Reporting to the Regional Manager, you will be charged with leading an RC drilling team, ensuring rig utilization, performance and profitability are at optimum levels.

The main aims of this role will be:

- Direct all RC drilling activities across the Group;
- Co-ordinate rig planning and budget forecasting for the RC division;
- Develop and maintain an effective team to achieve maximum profits and viability for the Group;
- Build effective operational management processes for:
 - Safety, Health and Environment management;
 - Preventive mechanical maintenance and effective supply chain management;
 - Ensuring continuous improvement of business and operational management standards;

In consultation with other senior managers within the Group.

You will be required to have:

- Minimum 10 years or more Supervisory/Managerial experience in the RC Drilling or Mining industry;
- Minimum Cert III ticket or higher;
- Experience dealing with clients and rosters;
- Experience with deep hole rigs and associated equipment;
- Demonstrated leadership in Safety, Health, Environment and Quality;
- Demonstrate the ability to empower local community's and holds cultural awareness in high regard;
- Ability to communicate at all levels;
- Mechanical knowledge;
- Intermediate level of Microsoft Office suite;
- Excellent verbal and written communication skills.

The role is based on FIFO roster of 8wks on/4wks off. A competitive remuneration package, plus bonus will be offered to the successful candidate.

Position will be based in various operating countries as per operational requirements and will require extensive travel.

To apply, please email a cover letter and detailed CV to: human.resources@capdrill.com
Quoting: RC Drill Manager in the subject line.

Applications close Friday 24 February 2012.
