We are proud to announce that our team at the Kabanga Nickel project in Tanzania have achieved 2 years LTI free.

This is a significant milestone and one that has a reflection of the dedication and commitment of all of our drilling crew, maintenance department, and the management and safety team.

Congratulations to all of our employees on site for their success and commitment in entrenching a culture of safety at Kabanga, and we look forward to this continuing to grow in strength into the near future.
